

Help children find joy in learning
 while acquiring the skills for academic success!
 Sponsored by **Parents and Children Together**

The goal of Academic Coaching On Line is to “coach” students in the techniques needed to master the basics required to achieve academic excellence.

PACT will assign a mentor for each family who you can e-mail or telephone as needed to assess your child’s program and progress.

Seminars and private sessions will also be available to help you.

Members and donors are invited to help sponsor families so that all families are able to join the PACT Academic Coaching Team.
